1-2 November 2023 – The St. Regis Mumbai, India

Dear Friends,

Welcome to the “Asian Business Dialogue on Corporate Governance 2023”, our 22nd annual conference since ACGA’s founding in 1999. This will be our third conference in India following events in 2008, shortly after the start of the Asian Financial Crisis, and 2017. India has been an important market for ACGA research for more than 20 years and is one of 12 markets we cover in our biennial “CG Watch” survey of corporate governance and ESG ecosystems in Asia-Pacific. In more recent years it has become an increasingly important market for our engagement with financial regulators and major companies. We envisage this trend will continue as the Indian economy and capital markets grow in significance. ACGA investor member firms manage in excess of US\$40 trillion globally and own material stakes in major Indian listed companies.

The theme of this year’s conference, “The future of governance: Asia’s fork in the road”, is intended to frame a discussion around the choices that governments, companies, investors and other market participants have regarding the type of corporate governance they want for their markets. We will delve into the tension between the commercial and regulatory functions of stock exchanges, the real challenges boards face in renewing themselves, the impact of concentrated ownership in the governance of state enterprises and family businesses, and many other issues. As always with an ACGA conference, we hope you leave stimulated and full of new ideas!

One factor that has allowed the “Asian Business Dialogue” to focus on programme content and speaker quality is the consistent and strong support of our regular sponsors. We would like to thank the following organisations for their generosity:

Principal Sponsors: CLSA, Fidelity International
Supporting Sponsor: EY
Workshop Sponsors: Capital Group, Norges Bank Investment Management

We are also very grateful to Institutional Investor Advisory Services (IIAS) for agreeing to be our Supporting Organisation this year. We worked with IIAS on our last India event in 2017 and it is a pleasure to collaborate with them again.

As always, a huge amount of work goes into organising each “Asian Business Dialogue”. I would like to thank all members of the ACGA Secretariat for overcoming numerous—and in some cases unique—obstacles to bring this year’s conference to a successful conclusion. Much appreciation must also go to the ACGA Council for supporting the choice of Mumbai as this year’s venue and contributing to the programme.

Finally, our gratitude to all our speakers and delegates this year. We trust it will be a memorable and worthwhile occasion for each of you.

Jamie Allen

Plenary 1: Regional overview: Asia's choices

A preview of our new *CG Watch 2023* survey on macro corporate governance in Asia. What types of corporate governance are different markets in Asia forging, and what does the next decade hold? Are there natural limits to what Asia can achieve given the political uncertainty, regulatory weaknesses and ageing boards in many countries? Conversely, will the need for greater transparency and accountability on sustainability and climate change drive improved corporate governance? Which markets are poised for faster governance growth in the years to come?

Speakers

Mr Jamie Allen, Secretary General, ACGA, Hong Kong

Mr Seungjoo Ro, Head of Sustain Asia/ESG Research, CLSA, Hong Kong

10:45 – 11:15

Coffee Break

11:15 – 12:30

ACGA Debate: "Is global stock market competition healthy for corporate governance?"

Until a few years ago, dual-class shares and SPACs were not part of the listing lexicon in Asia. Now they firmly are. Have stock exchanges engaged in a race to the bottom by lowering standards for IPOs? Or will investor pressure to enhance ESG reporting, board diversity and INED tenure enable bourses to attract more international credibility and capital? Is competition driving or dragging reform, and what other factors are at play?

Moderator

Ms Jane Moir, Head of Research, ACGA, London

Speakers

Ms Elisa Cencig, Senior ESG Policy Adviser, Norges Bank Investment Management, London

Ms Grace Hui, Founder and CEO, Net Zero Asia; Former Head of Green and Sustainable Finance, HKEX, Hong Kong (Virtual)

13:30 – 14:40

Forensic governance: Spotting fraud and misinformation

A session examining recent cases of corporate fraud in Asia. What are some of the early red flags investors and independent directors should look for? What do these cases say about the challenges facing auditors in the region? What more should securities and auditing regulators do to deter fraud?

Mr Praveen Sangana, Vice President – Equity, ESG & Forensic Research, Fidelity Investments, Bangalore

14:40 – 15:50

Time for change: Board renewal in Asia

What are regulators and market participants doing to encourage or require higher levels of board renewal around the region? Recent efforts include: limits on INED tenure; renewed focus on nomination committees; promotion of substantive policies, targets and plans for director and management diversity; director training institutes to raise knowledge levels and create pools of directors; and the arrival of the much-misunderstood “skills matrix”. The discussion will also examine why board renewal is necessary to address climate and environmental strategy, cybersecurity, human capital management, human rights and longstanding governance issues such as board effectiveness and independence, generating value for shareholders and ensuring sound systems of internal control.

Moderator **Ms Gillian Ng**, Senior Director of Corporate Governance & Sustainability, Iclif Executive Education Center of the Asia School of Business, Kuala Lumpur

Speakers **Mr Tan Boon Gin**, CEO, Singapore Exchange Regulation, Singapore
Dr Niraj Gupta, Head of the School of Corporate Governance & Public Policy, Indian Institute of Corporate Affairs, Gurgaon

In conversation with: Mid-cap heroes

ACGA Chair Steven Watson will lead a discussion on whether mid-caps in India are the future of good governance in the country. Are these companies leading the way or creating new forms of governance fit for a modern capital market? If not, what can, or should, investors do to encourage a new generation of well-governed listed mid-caps? Will AI help or hinder this process?

Moderator **Mr Steven Watson**, Chair, ACGA; Partner, Capital International Investors, Hong Kong

SOE governance

A session examining the governance of state-owned enterprises in China, India and other markets in the region. Are we seeing progress, regress or stasis? To what extent are governments insisting on higher CG standards in these enterprises? How do these enterprises compare with private firms in terms of board composition and practices, sustainability disclosure and gender diversity? Has the investment case for SOEs improved? Geopolitics and capital markets

How are the ongoing tensions within the region and internationally affecting capital flows and investor confidence? Who are the winners and losers? Asian Corporate Governance Association (ACGA)

ACGA is an independent, non-profit membership organisation dedicated to promoting long-term improvements in corporate governance in Asia through research, advocacy and education. ACGA was established in Hong Kong in 1999.

ACGA's membership network comprises more than 100 blue-chip companies, including global investment institutions, listed and unlisted companies, financial intermediaries, professional firms and educational bodies based in Asia and around the world.

Research and Publications

ACGA is well known for producing high-quality independent research. Our respected biennial regional survey, *CG Watch*, provides in-depth analysis of corporate governance systems in Asia-Pacific and ranks the CG performance of each market. It is published collaboratively with CLSA, a founding ACGA member. Our 10th *CG Watch* report was released in mid-2021 and our 11th survey is in process.

ACGA also produces thematic research. In 2018 we released our landmark China CG Report, "*Awakening Governance: The evolution of corporate governance in China*", a 268-page report that gave a comprehensive picture of the corporate governance landscape in China. In early 2022 we released a report on board diversity at the top 100 issuers in Hong Kong, followed by a similar study on the top 100 listed companies in China in August 2023.

Advocacy

ACGA actively engages with regulators around the region on priority issues of governance and ESG. We address issues arising from our own research or through consultation with members, from stewardship codes and shareholder proposals, to gender diversity and regulatory enforcement.

We host regular discussion fora with members in Asia-Pacific, Europe and North America, enabling them to interact, share notes and unpick CG issues in different Asian markets. Specialist working groups focus on Japan, Korea and China and help to facilitate deeper dives into particular issues as well as extensive company engagement at senior executive and board level.

Each year ACGA also organises member delegations around Asia to meet and engage with policy-makers and organisations from the public and private sectors. These interactive and highly practical meetings enable members to deepen their understanding of markets by engaging directly with companies, regulators and other stakeholders. Our last delegation to Japan was held in-person in September 2023.

Education

Following our first annual conference in 2001, we have organised the event in a different Asian market each year. In 2022 we took the event outside Asia—to London—for the first time. ACGA hosts member briefings in-person and via webinars in the Spring and Autumn. We also offer in-house presentations for members on specialised topics.

Website

Our website (www.acga-asia.org) is a repository of all ACGA's advocacy efforts including our white papers, submissions, *CG Watch* reports and presentations from 2004 onwards. There is a section which is dedicated exclusively to members.

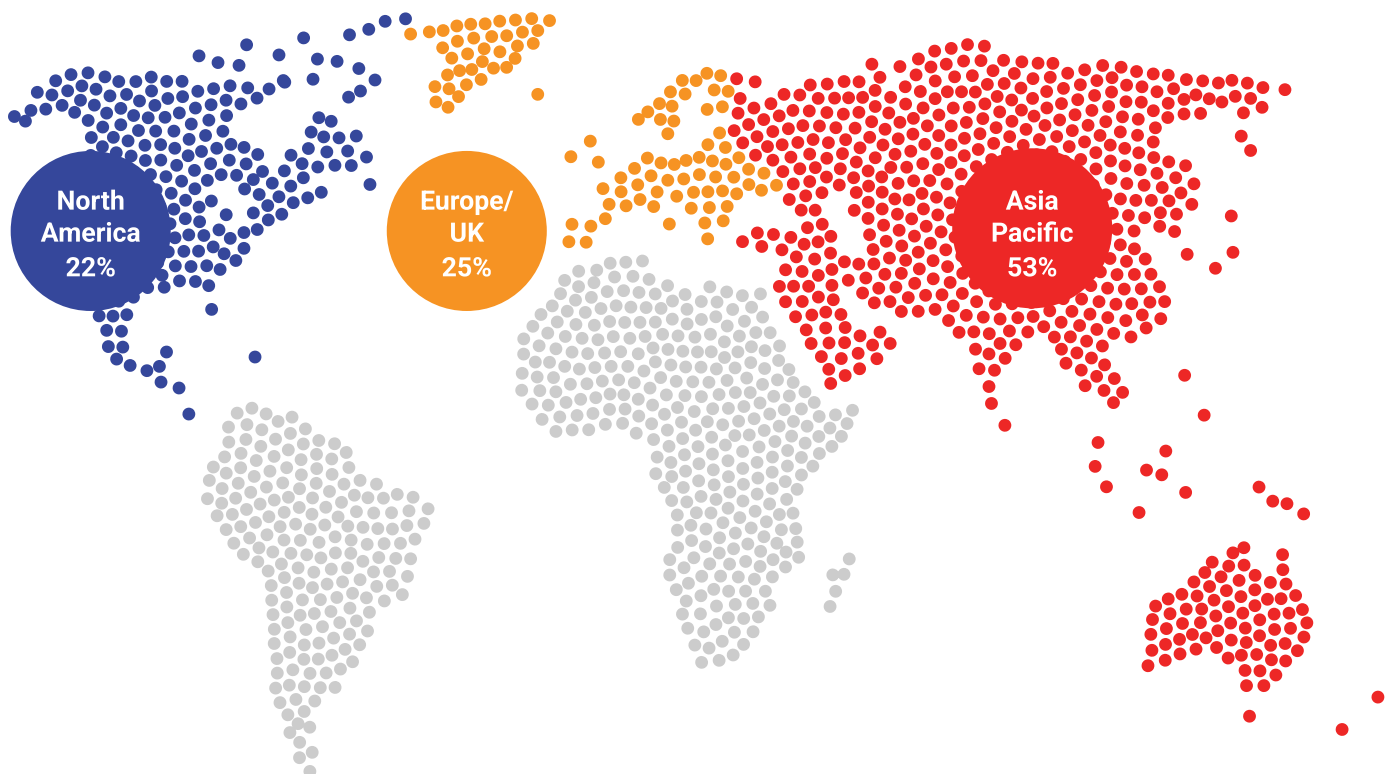

ACGA Membership Network

ACGA has a unique and influential membership network. It comprises a diverse range of more than 100 global and regional companies/organisations with a direct involvement in corporate governance and ESG.
